

International Virtual Conference on 3d Food Printing and Additives

March 18, 2024 | Virtual

Support the conference and take advantage of getting connected with your target audience!

The United Scientific Group (USG) organizes interdisciplinary international conferences to showcase cutting-edge basic and applied research outcomes within life sciences including medicine and other diverse roles of science and technology in society.

In this one-day conference, you will witness truly engaging featured presentations by the world's leading Food technologists and Scientists and a plethora of research presentations. Recent advancements in food technology are all aimed at 3D food printing and additives, a potential future for personalized nutrition and creative culinary experiences. The diverse range of topics covered will cater to various interests, ensuring that each participant finds valuable insights to enhance their understanding.

Go through our sponsorship packages below and select the one that suits your needs!
