

UNITED Scientific Group

ICID-2018

INTERNATIONAL CONFERENCE ON
INFECTIOUS DISEASES

November 5-7, 2018

PROGRAM

Venue

Sheraton Berlin Grand Hotel Esplanade

Luetzowufer 15, Berlin
10785, Germany

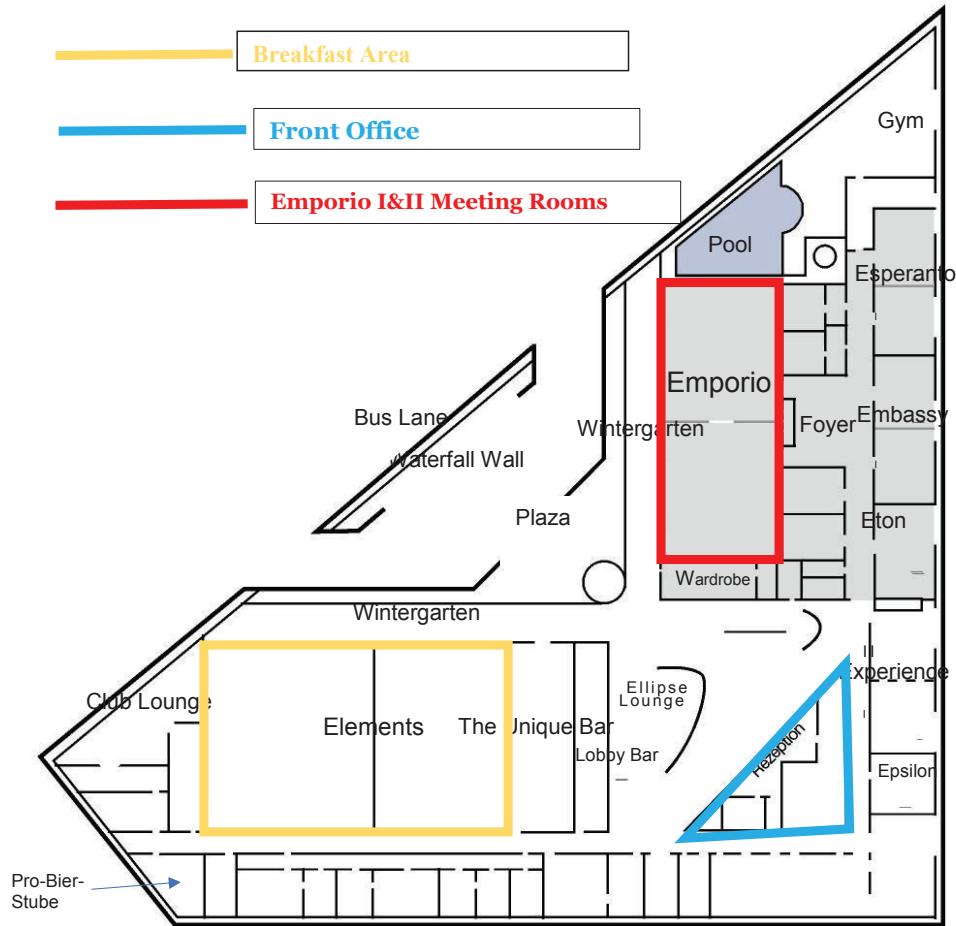

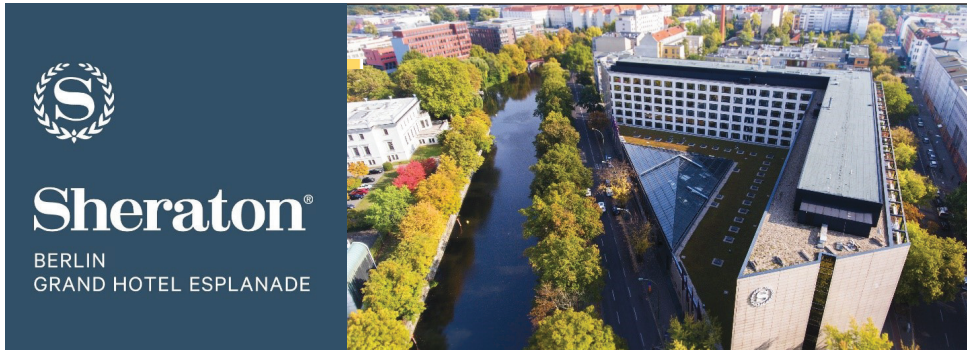

We are excited to use Whova as our event platform.
Attendees please download Whova event app.

The event invitation code is: **infuy**

Venue Floor Plan

Day 1 November 5, 2018

Keynote Session

@ Emporio II

- 09:00** *Multiplex serology, ME/CFS and an antibody for everybody*
Jonas Blomberg, Uppsala University, Sweden
- 09:30** *A novel influenza vaccine targeting protective epitopes of limited variability*
Sunetra Gupta, University of Oxford, United Kingdom
- 10:00** *TRANSVAC research infrastructure - Results and lessons learned from the European network of vaccine research and development*
Odile Leroy, European Vaccine Initiative, Germany
- 10:30** Coffee Break @ Wintergarten B + Foyer

Session 1

@ Emporio II

Chair Sanjib Bhakta, University of London and UCL, UK

- 11:00** *A study of multi-organ dysfunction syndrome in malaria using sequential organ failure assessment score in Uttarakhand, India*
Rajeev Mohan Kaushik, Swami Rama Himalayan University, India
- 11:30** *The possible involvement of Epstein–Barr virus in the etiology of leukemia in sudanese patients*
Haitham Eltigani Mohammed Elawad, Omdurman Islamic University, Sudan
- 12:05** *Repurposing common non-steroidal anti-inflammatory drugs (NSAIDs) to reverse intrinsic drug resistance in TB superbugs.*
Sanjib Bhakta, University of London and UCL, UK
- 12:35** Lunch Break @ Elements I+II

Symposium

@ Emporio II

- 13:30** *Novel antibiotics for treatment of complicated urinary tract infections*
Kurt G. Naber, Technical University of Munich, Germany
- 14:00** *Azidothymidine is a new class and is bactericidal in combination with colistin against highly resistant Enterobacteriaceae*
Anthony Coates, University of London, UK
- 14:30** *Pharmacokinetic/pharmacodynamic studies in human with azidothymidine in combination with colistin*
Kurt G. Naber, Technical University of Munich, Germany
- 15:00** Coffee Break @ Wintergarten B + Foyer

- 15:30** *Antibiotic sensitivity of catheter biofilm - study in Comilla medical college hospital, Bangladesh*
Mahabubul Islam Majumder, Comilla Medical College, Comilla, Bangladesh
- 16:00** *IDEAL project: An international cooperative approach to infectious disease teaching At undergraduate level*
Federica Wolf, Universita Cattolica del Sacro Cuore, Italy
- 16:30** *Frog antimicrobial peptides in combination: A new strategy against Staphylococcus aureus*
Carolina Muñoz Camargo, Universidad de los Andes, Colombia
- 17:00** *Antibacterial effect of the extracts and essential oils prepared from Pistacia lentiscus L. mastic gum against clinical species: Salmonella typhi, Salmonella paratyphi a and Salmonella typhimurium isolated from clinical samples*
Balsam Qubais Saeed, University of Sharjah, Sharjah

17:30-18:30

Poster Presentations

@ Wintergarten B

- P-01** *Deep sequencing analysis reveals abundant endogenous tRNA-derived RNA fragments in Plasmodium falciparum*
Zhensheng Wang, Chinese Academy of Medical Sciences, China
- P-02** *MRSA infection complicating thalidomide-induced toxic epidermal necrolysis*
Wissam Kabbara, Lebanese American University, Lebanon
- P-03** *Combining a virus-encoded virus-like particle vaccine with SIV accessory antigens and Gag conserved elements*
Melanie Schwerdtfeger, University of Copenhagen, Denmark
- P-04** *Associated factors and microbial isolates in puerperal sepsis and their in vitro antibiotic sensitivity in hiwot fana specialized university hospital, Eastern Ethiopia*
Abdella Gemechu, Haramaya University, Ethiopia
- P-05** *The long non-coding RNA new player in brucellosis*
Reza Gheitani, Hamadan University of Medical Sciences, Iran
- P-06** *In vitro determination of the efficacy of scorpion venoms as anti-microbial agents against multidrug-resistant micro-organisms*
Maysa Mahfoud, Prince Sultan Military Medical City, Saudi Arabia
- P-07** *STD prevention and control by mean of lifestyle modifications: Focus on Islamic lifestyle*
Mohammad Rabbani Khorasgani, University of Isfahan, Iran
- P-08** *Is there a correlation between levels of liver enzymes and toxocariasis*
Zahra Eslamirad, Arak University of Medical Sciences, Iran

Day 2 November 6, 2018

Session II

@ Emporio II

Chair: *Yi Li, Guangzhou Institutes of Biomedicine and Health, China*

09:30 *Capturing HCV immune escape by targeting structural based mechanism*

Yi Li, Guangzhou Institutes of Biomedicine and Health, China

10:00 *The epidemic characteristics of hemorrhagic fever with renal syndrome in Hubei province, China*

Tian Chen, Wuhan University, China

10:30 *Effects of urbanization and landscape anthropization on the ecology of Aedes vectors in arbovirus-endemic settings in Côte d'Ivoire*

Julien Zahouli, University of Cocody, Ivory Coast

11:00 Coffee Break

@ Wintergarten B + Foyer

11:30 *Recombinant coxsackievirus A2 with neurological complication in Taiwan*

Kao-Pin Hwang, China Medical University and Hospital, Taiwan

Paediatric Infectious Diseases

12:00 *Scaling up sustainable malaria diagnostic capacity – for clinical care and research in a holoendemic area*

Olugbemiro Sodeinde, Bioble J Brown, Ifeanyi K Ifeiorah, University of Ibadan, Nigeria

12:30 *Review of measles epidemiological situation and trend in Afghanistan (2009 to 2017)*

Muzhgan Habibi, Ministry of Public Health, Afghanistan

13:00 Lunch Break

@ Elements I+II

Session III

@ Emporio II

Chair: *Ashild Kristine Andreassen, Norwegian Institute of Public Health, Norway*

14:00 *The geographical distribution of ixodes ricinus and prevalence of the tick-borne encephalitis virus (TBEV) in low prevalence areas in Europe*

Ashild Kristine Andreassen, Rose Vikse, Norwegian Institute of Public Health, Norway

14:30 *Why our body acts against facts of physics in fever*

Yacob Mathai, Marma Health Centre, India

15:00 *Sero- and molecular prevalence of brucella abortus among women presented with abortion visiting tertiary care hospitals in provincial capital Lahore, Pakistan*

Muhammad Awais, University of Veterinary and Animal Sciences Lahore, Pakistan

15:30 *Spatio-temporal patterns of cutaneous leishmaniasis in district dir, Khyber Pakhtunkhwa, Pakistan and its plant based control*

Naveeda Akhtar Qureshi, Quaid-i-Azam University, Pakistan

16:00 Coffee Break

@ Wintergarten B + Foyer

Day 3 November 7, 2018

Keynote Session

@ Emporio II

- 09:30** *Evolution and ecology of plague: a disease of today which changed our history*
Nils Christian Stenseth, University of Oslo, Norway

Session IV

@ Emporio II

Chair: Caroline Ajonina, Hamburg University of Technology, Germany

- 10:00** *Malaria and acute kidney injury*
Rajeev Mohan Kaushik, Swami Rama Himalayan University, India
- 10:30** **Coffee Break** @ Wintergarten B + Foyer
- 11:00** *The detection of *Entamoeba histolytica* and *Toxoplasma gondii* in wastewater*
Caroline Ajonina, Hamburg University of Technology, Germany
- 11:30** *Bridging the gap between research, practice, & policy of emerging diseases in oust Africa*
Alpha Ahmadou Diallo, Guinea - Conakry, West Africa
- 12:00-** **Lunch Break & Departures** @ Elements I+II

8105, Rasor Blvd - Suite #112, PLANO, TX 75024, USA
